# TEBA IBRAHIM

Software Developer

## EXPERIENCE

### SENIOR WEB APPLICATION DEVELOPER

Jan. 2018 - Present

ExperiencePoint

Toronto, ON

- Developing real-time virtual collaboration tools and interactive online workshops that teach human-centred design principles to organizations around the world.
- Collaborating with the creative team to create user flows and wireframes.
- Conducting user tests and user interviews, and iterating on prototypes in order to "fail faster and succeed sooner".
- Managing the product team's timeline and balancing our scope requirements, tech debt, and bugs to meet quarterly objectives.

**Tools:** Angular, TypeScript, RxJS, Redux, Immutable, WebSockets, Karma, Jasmine, Symfony, PHP, SCSS, Postgres, JavaScript, Webpack, CI/CD.

### FULL STACK DEVELOPER

Nov. 2016 - Dec. 2017

WebSeeds

Markham, ON

- Developing and designing large-scale e-commerce websites.
- Setting up A/B tests to track user engagement and increase sales.
- Creating a user portal for customers to access products.
- Integrating with various merchant processing, email, and shipment APIs.

**Tools:** JavaScript, Angular, PHP, NodeJS, ExpressJS, jQuery, SCSS, HTML, MySQL, Gulp, Docker, Photoshop, Microsoft Azure, Google Analytics.

### WEB DEVELOPER and QUALITY ASSURANCE

Oct. 2015 - Nov. 2016

meshMD

Toronto, ON

- Developing a mobile app for iOS and Android that tracks illness symptoms.
- Creating SOPs, requirements briefs, and test cases for our applications.
- Assisting users and clients with technical issues on our medical portals.

**Tools:** JavaScript, jQuery, Cordova, Local Forage, HTML, CSS.

## PROJECTS

### CO-FOUNDER

Jan. 2016 - Present

Anaphylactic Applications

Toronto, ON

- Developing and designing mobile game apps for iOS, Android, and web.

**Games released:** Circle Status, Where's Balldo, Four Factors.

**Tools:** JavaScript, Phaser, PixiJS, jQuery, Cordova, HTML, CSS.
